# PROGLOW FITTING INSTRUCTIONS

## Attaching using the locking collar

For locking collar use with mono-filament lines between 1.2 mm - 2.4 mm in diameter.

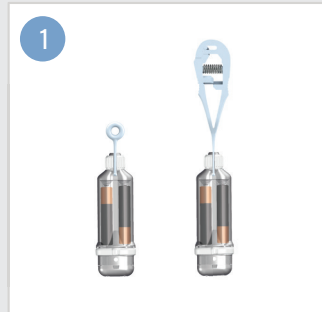

1 Feed the end of the line through the notch in the line clip and up through the groove in the locking collar.

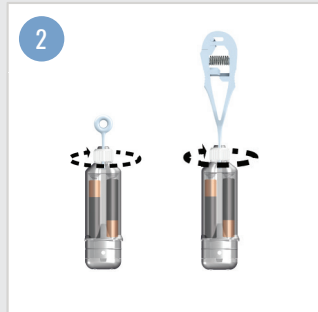

2 Twist the locking collar clockwise until it clicks, making sure the line trapped inside.

## Attaching using the optional snap / eye

For ProGlow snaps use with mono-filament lines between 1.2 mm - 3.0 mm in diameter.

1 Place the end of the snap / eye into the groove in the locking collar.

2 Twist the locking collar clockwise until it clicks, making sure the snap / eye is inside.

3 Squeeze the snap and attach it to the line.
