

INTRODUCING THE

POTLIGHT

Advanced deep drop fishing light

FISHTEK
MARINE

Increase
your catch
rates

TECHNOLOGY THAT WORKS FOR FISHERMEN AND THE ENVIRONMENT

Advanced deep drop fishing light

Proven to increase catch rates in pot and trap fisheries

Low Cost and Durable

Rapid payback on investment.

Durable

Depth rated to 500m.

Easy to Use

Fixes to the inside of the pot.

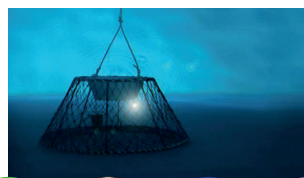

Long Battery Life

500+ hours battery life.

Auto Immersion Switch

On/off in water.

Available in a range of colours:
flashing or constant
Green, white, blue and disco.

POTLIGHT (PAT.) FITTING INSTRUCTIONS

BATTERY REPLACEMENT (ALSO SEE VIDEO ON WEBSITE)

Alkaline AA batteries should be used and not Lithium Cells.

Insert a small (4mm) flat head screwdriver into the battery removal slot (rectangular indentation) and gently lift to prise off the end cap.

Replace old batteries ensuring the polarity is correct.

Be careful not to remove/dislodge the circuit board.

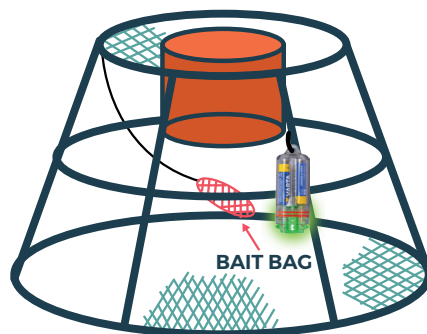

Click the endcap back onto the PotLight.

Test the light is working.

To prolong the life of the PotLight, batteries should be replaced in dry and dirt-free environments.

FITTING THE POTLIGHT INTO POTS AND TRAPS

PotLights should be attached to the inside and centre of the pot/trap (e.g. close to bait bags). Lights can be attached to the insides of the pots with either cable ties or a conventional snap and split ring.

RECOMMENDED USE:

ONE LIGHT PER POT/TRAP OR FOR LARGE POTS/TRAPS USE TWO LIGHTS.

TECHNICAL SPECIFICATIONS

Dimensions	105mm x 40mm x22mm
Weight (with batteries)	105 grams
In-water Weight	34 grams
Depth Rating	500 m
Battery Type	2 X AA Alkaline
Immersion Switch	Automatic immersion switch
Attachment Hole Diameter	5.5 mm
PotLight housing	Tough, injection moulded polycarbonate

COLOUR OPTIONS

Type	Colour	Battery Life**
Constantly on	Green	500 hours
	White	500 hours
	Blue	500 hours
Flashing	Green	800 hours
	White	800 hours
	Disco (7 colours)	800 hours

***Battery durations are approximate and dependent on water temperature and battery quality.*
